“ I miss her each and every day. I could have done more. I should have done more. She was like a little sister to me and I can't fix it. I love you girly. - your friendly Park Ranger. XoXo

“ I just recently met Bridget , she was guardian on my case. I spoke with her a few times and then found out about her recent passing , I was shocked me. After speaking with her about my case, i felt such a relief and finally felt someone listened to me and what ive been going through. Bridget's presence gave me hope and I felt in good spirits after discussing the case regarding my daughter. I feel she was a very caring person and kind hearted , trying to help people, I was very sad to hear this news, and my condolences to her family and friends.

“ After I learned of Bridget's death last night, I tried to sit and contemplate what she meant to me. Bridget and I lived together for 2 years when we started law school and moved to New Orleans. Bridget was the first law school classmate I met and the first friend I made in New Orleans. Though we have our difficulties she was one of my closest friends those first two years. Even though we had been out of contact, her loss hit me like an anvil. Prayers and thoughts to her parents, her brothers and sister and the entire family

“ I love this family. I am so saddened by their loss. Bridget was my small business attorney. She was such a great attorney. Very competent. She also helped my son in a legal issue. My prayers are always with you Linda.

LO

I miss you every day. You were a big sister to me and I admired you so, so much. I have a polaroid of you in my cubicle at work- back when you were designing clothes and believed in me as a photographer. We really had a lot of fun. I moved to New Orleans partly because you made me feel secure that I'd thrive here. I even helped you move back to Ohio! it was such a fun trip and I think about it often. Love you B <3
